

## TECHNICAL DATA (J-20203112)

- Dimensions: 751,4 x 700 x 1899,8 mm
- Standards: HACCP
- Air: 5-6 bar (at least)

## CAN OPENER, PNEUMATIC

“

The Can press is made of stainless steel 304 thus meeting the requirements of HACCP and high hygiene. The Can press works pneumatically.

With the Can press, it is possible to press cans of up to 10 kg.

The size of the press chamber is 290 x 300 x 410 mm.

The maximum compressible size for square cans is 250 x 250 x 370 mm and round Ø 240, height 390 mm.

The Can press is splash-proof and very easy to use.
