

## TECHNICAL DATA (FF 003B-15350B)

- Weight: approx. 370 kg
- Height: 2520 mm
- Width: 1378 mm
- Length: 1980 mm
- Capacity: Max. 3500 kg/h
- Voltage: 400 V, 3-phase, 50 Hz, if the drive 400 V, 1-phase, 50 Hz
- Connected load: 0,75 kW

## FF DESTONER (LARGE)

“

Destoner separates heavy and hard surface, non-floating, such as stones, from root vegetables before further processing. The machine collects them at the bottom of the machine's tank.

The separation of stones prevents damage to the blades of the other processing machines. In this way, the product maintains high quality, and there are no interruptions in production.

In the machine's a water tank where the products can be pre-rinsed.

Manufactured by Forsfood
