Needs to label:

Use of the substance is packing remarkable.
Notice your own country's legislation!

Suitability for organic products:

Suitable for use in organic products.

Packing and storage:

This product is in powder form. Pack size is 20 kg.

DRYWITE NATUR-FRESH 25 KG

“

Natur-Fresh is a product for rinsing salads, vegetables and vegetables. Natur-Fresh is a rinsing agent that increases the shelf life of the rinsed product by up to five days. The substance slows down the color changes on the surface of vegetables due to enzyme reactions and reduces the microbiological load. Natur-Fresh is completely sulfite-free and chlorine-free and GMO-free.

Natur-Fresh is suitable for use on fruits, vegetables and peeled potatoes. It can also be used for organic products.

”

INSTRUCTIONS

“

- **Dipping concentration:** Mix 10 grams of Natur-Fresh- powder for each liter of water. Allow the surface to dry before packing and store the products of +5 ° C.
- **Dipping times:** Below you can find table which includes indicatives dipping times for different products. Marked dipping times are approximate and depend on the variety, growing conditions, water quality, as well as the general level of cleanliness. Therefore, we recommend making your own tests using different dipping times.

”
