

TECHNICAL DATA (003E-16909)

- Weight: 300 kg
- Capacity: n. 1500 kg/h
- Voltage: 400 V, 3-phase 50 Hz, if the drive 400 V, 1-phase, 50 Hz
- Motor: 0,13 kW

FF EASYDIP-150

FF EasyDip-150 guarantees the same dipping time for each rinsed product. Thanks to the perforated bottom structure, for example, starch settles down into a collecting tray. The base plate is reversible, which makes washing easier. The rinsing drum is placed after the sorting table before the packing machine.
