

TECHNICAL DATA (003F-23500A)

- Weight: 66 kg
- Capacity: 350-400 kg/h
- Dimensions: 530 x 516 x 1170 mm
- Voltage: 400 V/0,12 kW/50 Hz
- Motor: SEW gear motor

FF EASYDIP 25

“

FF EasyDip-25 is intended to rinse and/or treat peeled and cut root vegetables, vegetables and fruits with an agent. EasyDip-25 saves production space due to its small size, and the throughput capacity, depending on the product, reaches up to 350-400 kg/h.

There is a speed controller that can adjust the dipping times.

The EasyDip-25 is made of stainless steel and easy to clean: no tools required!

Manufactured by Forsfood Oy
