- Dimensions: 1015 x 865 mm
- Height: approx 20 mm
- One mat included in the delivery.

WALK TROUGH HYGIENE POOL (SMALL)

“

Forsfood walk trough hygiene pool is intended for maintaining the hygiene of the necessary runs in the production facilities.

When entering the pool, the soles of the footwear and the wheels of the transfer equipment are disinfected. The structure of the hygiene pool is stainless, and the crossing height is small, which makes passage easy. The sloping edges of the basin make it easier to cross with pump carts and have lifting openings to facilitate its daily maintenance. The small pool has one straight edge that can be placed against the doorstep.

The pool's mat is durable, bottomless and made of material that effectively removes debris and dirt and is easy to clean. It can also be used dry to dry the soles of the footwear after using a shoe washer.

Manufactured by Forsfood
