

TECHNICAL DATA (10-1000A-XX)

- Length: 1085 mm
- Height: 1500 mm
- Width: 1000 mm
- Weight: approx. 400 kg
- Supply voltage: 400/200 VAC
50/60 Hz, 3-phase. Connecting
load: 0.55/1,1 kW
- Water connection: 2/3 "
- Noise level: <80dbA

CLASSIC-XL PROFILER

“

- Forsfood molding machines are developed to form raw material into round balls. The shaping tools can form balls of a desired diameter.
- Diameters available from 17 to 35 mm .
- The machine is suitable for profiling both snack products and more demanding fine dining products.
- It is suitable for potatoes, different kinds of root vegetables, fruits etc.
