

TECHNICAL DATA (0012-14050)

- Brand: Forsfood
- Weight: prox. 300 kg
- Power: 400 V 3-phase 0,55 kW
Depending on execution

FF ROLL SORTER

“

- Roll Sorter is suitable for roundish products sorting. The machine will sort according to size, and / or remove fine particles and undersized products. Sorter is inexpensive, reliable, and easy to clean.
- Products can be sorted to either conveyors or product containers for further processing. Sorter is infinitely variable and easily adjustable. Roll Sorter is ideally suited for example potato, cucumber, beetroot, etc. Roller Stacker's stand and funnels are made in case by case.
