

TECHNICAL DATA (0055-13070A)

- Capacity: approx. 300 pcs/h
- Voltage: 220 Vac, 50Hz
- Compressed air: Recommended operating pressure 6-8 bars
- Height: 1900 mm
- Width: 900 mm
- Depth: 900 mm
- Weight: 175 kg

PINEAPPLE PEELER

“

The Forsfood PINEAPPLE PEELER is a semi-automatic device intended for industrial production.

One product is manually placed on the tray of the machine and the machine automatically peels the product, removes the skins and the core of the pineapple, turning the peeled pineapple into a cylindrical product.

The machine works with compressed air and is electrically controlled.

Thanks to the quick fasteners, its tools are quick and easy removable for washing and cleaning.

The standard size of the peeled product is 120 mm X 89 mm

Also available in other sizes for peeling.

Manufacturer: Forsfood
